

Product Description

Raised wc close coupled bowl

DESCRIPTION

Created to adapt with your bathroom area

Providing for the elderly and less-abled, is essential in today's society. To cater for differing height requirements and to ensure products can be used correctly, bowls, basins & handrails, must be capable of easy height adjustment. Rooms must also be flexible, enabling products such as hinged rails, to be removed, so that the room can be used by abled people as well. Last but not least, all products should be easily accessible by the user.
